New Inspirational Book Offers Message of Hope

Flower Mound, Texas (May 12, 2008) – The WALK THE TALK® Company, an organization offering resources for personal and professional development, announces the release of *Welcome The Rain: Choosing to See Beyond Life's Storms*.

“*Welcome The Rain* is one of the top ten most powerful books I’ve ever read. More importantly, it has given me, as I hope it will you, life lessons that will go beyond the mere enjoyment of reading this book. It is the perfect gift for a family member, business associate, or even yourself,” says WALK THE TALK founder Eric Harvey.

The essence of *Welcome The Rain* is to understand that ultimately we are in control of the way we think about and respond to life’s events, both in our personal and professional lives. This inspirational book, filled with motivational themes accented by beautiful images, has thirteen short chapters each devoted to a different type of Rain: *Inconvenience, Delay, Challenge...* The idea is that by changing our perspectives, we can turn these so-called negatives into positives. In the last chapter, author Michelle Sedas shares “*My Rain. My Story*,” leaving the reader inspired and uplifted.

Whether you’re merely dealing with life’s daily ups and downs, or are weathering stronger storms, this book will remind you to...

**choose to see beyond life’s storms...
because it is only after the rain that you will find your rainbow.**

The *Welcome The Rain* book costs \$12.95. The *Welcome The Rain* inspirational movie will be available May 13. Both can be purchased online at www.walkthetalk.com.

About The WALK THE TALK Company

Since 1977, WalkTheTalk.com has helped organizations and individuals worldwide achieve success through ethical leadership and values-based practices. Its mission is both simple and straightforward: to provide organizations and individuals with high-impact resources for personal and professional success. The company offers hundreds of tactical and practical tools, each designed to inspire, inform, and most importantly, give the individual new levels of professional skills and confidence.
